

Covid-19 - Advice to the Fork Lift Truck Industry

Keeping your people safe and your business running

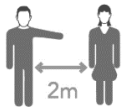

Catch it, Kill it, Bin it

- Have a supply of tissues available for staff to use
- Regularly empty the bins. If you sneeze or cough before you have had chance to get a tissue, make sure it is into your elbow, rather than your hands.

Personal Hygiene

- Avoid touching your face
- Regular and thorough handwashing with soap (at least 20 seconds)
- Make sure all staff have access to soap and anti-bacterial gel

Social Distancing

- Try to keep 2 metres apart from co-workers
- Avoid contact with anyone displaying symptoms especially respiratory and fever

Physical Contact

- Do not shake hands
- Avoid physical contact

Cleaning

- Clean all equipment including trucks, phones and computers after each shift
- Deep clean all areas during downtime (e.g. weekend / night)
- Clean all door handles and bannisters
